dostupné jakosti: na poptávku

Armatury > Měřicí a regulační technika > kohouty s manometrem > uzavírací kohout s čepem

Pressure gauge taps are suitable for use with liquids, gases, and vapors in the temperature range from -10°C to 50°C.

Use a DIN 16258 gasket to connect the pressure gauge.

With polypropylene handle.

Pressure gauge shut-off valves must be used for higher pressure levels and temperatures and for oil-free and fat-free applications.
