Pallet

Packaging	Price
Disposable pallet small	8,10 EUR
Disposable pallet large	10,25 EUR

Freight forwarder shipping costs

Bundled goods packaging costs

General cargo

The freight forwarder ships tube shipments weighing max. 400 kg as "general cargo".

It is possible that the freightforwarder shall transship the shipment should the tube bundle be shipped as general cargo.

In this case, the bundles are carefully packed with wooden slats in order to protect them from damage in transit while they are being loaded and offloaded.

Direct delivery

The freight forwarder ships tube shipments weighing more than 400 kg as a "direct delivery".

In the case of a direct delivery being made, the shipment is not transshipped in a depot but is delivered direct. In this case, we do not pack the tube bundles extra.

This does not incur any separate packaging costs.

Tube bundles
