

»Select once and profit from speed!«

Favourites

Save your desired article as a favourite by adding it to your favourites list.

You then have the following benefits:

- Faster direct downloading of an article group
- Faster displaying of the stocks and price tables
- Structured presentation of the articles you have selected

Where do I find the favourites?

1 You can access the favourites via the **myheco** menu after you have successfully logged into our customer portal.

Quick guide

How do I save my favourites?

2 Your favourites list is empty – how to save an article as a favourite.

All of the articles are marked with an asterisk ☆ after you have successfully logged into **myheco**

You can add the article to your personal favourites list by clicking on the asterisk ☆. You can delete the article from your favourites list by clicking on it again ★.

You can add articles to your favourites list in a number of ways.

2  Your favourites

You haven't set any favourites yet.

If you mark an article with a star, ★, it will appear in your favourites list.

3 frequently seen

	socket, seamless DIN EN 10241	☆
	bend 90° type 3	☆
	welding nipple EN 10241	☆
	welding neck flange PN 6	☆
	1-pc ball valve ECONOMIC	☆

The „frequently downloaded“ recommendations list only appears if the favourites list is empty and is only displayed in the right-hand part of your favourites list until you have saved a favourite.

.. from the product area

4 You can designate an article in the basic data as a favourite.

You can still save and delete favourites under „related articles“, „frequently downloaded“ and „last seen“ on the right-hand side.

Where are my favourites displayed?

Your favourites are displayed both in the product area and in your favourites list.

... in the product area

5 You will find a selection of your favourites under „your favourites“ on the right-hand side of the product area.

Your „favourites“ only appear on the right-hand side if you have saved articles from the selected articles class as favourites.

Example: if you are in the butt welding fittings article class, you will only be able to see your favourites from the butt welding fittings article class on the right-hand side!

... in your favourites list

6 To see all of the favourites you have saved, go to „Favourites“ in the myheco menu.

7 This is where your favourites are displayed in article class groups.
