W5	200-213	25	GBSA-200-W5

available material: V4A

Installation supplies > hose clamps > trunnion clamps

Hose clamp GBS

single-piece

Trunnion type A - standard

suitable for high pressure, strong external hex screw and robust bolts made of solid material

Especially for critical hose connections with high torque in the industrial sector

Tongue secured against loss

stainless, acid-resistant

Version	Material	-
W1	Steel galvanised	
W2	Bolt + Screw: white galv.,	Band: stainless steel 1.4016/ AISI
W4	stainl. steel 1.4301(V2A)/AISI 304	
W5	stainl. steel V4A/ AISI 316
